## IOANNIS PASSAS

Dr. Ioannis Passas is a highly accomplished professional with a number of prestigious certifications to his name. He is a Certified Internal Auditor (CICA) and Certified Control Specialist (CCS) - qualifications awarded by the esteemed Institute of Internal Auditors (IIC). Additionally, he holds the Certified Management Accountant (CMA) designation, which was awarded by the Institute of Certified Public Accountants (ACPAI). He has also been recognized as a Certified Internal Auditor by the Ministry of Finance of Greece - Economic Chamber of Greece, indicating his expertise and unwavering commitment to maintaining the highest standards in his field.

Apart from his academic responsibilities, Dr. Passas has been an active member of the international academic community. He has presented his research work at numerous international conferences, sharing his knowledge and expertise with colleagues and academics from around the world. His contributions to the knowledge sphere extend beyond conferences - he has published over 30 research papers, which have been included in peer-reviewed journals. He has also contributed to several volumes of foreign language books. Furthermore, he has authored six academic books, of which four are on Accounting and Management Accounting - his main discipline - and the other two focus on Research Methodology, showcasing the diversity of his scientific interests.

His research spans across multiple disciplines, including finance, accounting, and auditing. He has a keen interest in several key research areas, such as ESG (Environmental, Social, and Governance), Management Commentary, and Disclosure Narrative Information, as well as Financial and Management Accounting. Additionally, he is involved in Multicriteria Analysis in Management Accounting, Strategic Decisions, Financial Fraud, and Auditing. He also focuses on financial statement quality assessment, traditional accounting, and the intersection of accounting and operational research.

In addition to his academic and research pursuits, he maintains active membership in several professional organizations, including the Hellenic Association of Economists and Accountants. He also fosters collaborations with esteemed research laboratories, such as the Business Research and Management Audit Laboratory (OramaLab) and the Accounting and Financial Management Laboratory (LAFIM). Moreover, he is affiliated with the IIC, the IIA Greece, the Institute of Public Accountants ACPAI, and the Economic Chamber of Greece.
